FIRST EDITION

Rotherham College Centre for Higher Learning Skills

We are pleased to present you with our First Newsletter. We are excited to begin working on The Rotherham College Centre for Higher Learning skills on the Doncaster Gate site for the RNN Group. We hope to become part your community during our time here.

Meet the team

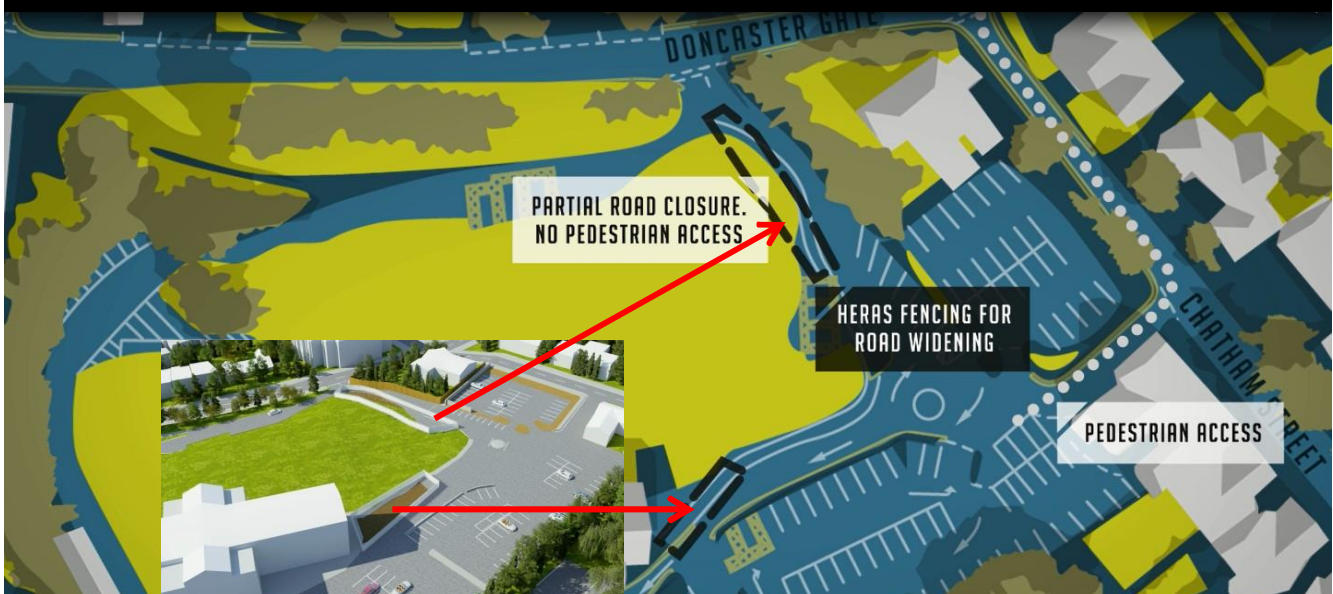

Alanm.Neal@willmottdixon.co.uk

My Name is Alan Neal, I am the Construction Manager for the Project and will also be the Community Liaison based on site. I will keep you well informed about what is happening on the project with our site display notice board which will be on the site hoarding along with regular newsletters and occasional chats.

WHAT WILL BE HAPPENING OVER THE NEXT 4 WEEKS?

- We will firstly take possession of the site on the 31/7/17.
- We will be carrying out road widening works to the entrance road into the medical centre, this will unfortunately mean that the pedestrian access via the Doncaster Gate entrance will be closed to pedestrians only, we will however provide a diversion via Chatham Street.
- Once the road widening works are complete the route for traffic visiting the medical will go from a one way system to a 2 way entry and exit via the Doncaster Gate entrance with the pedestrian route reopened.
- These works will take 3 weeks
- We will then carry out the bulk digging operation.
